DETAILED ACTION

Election/Restrictions

As an initial matter, Examiner refers applicant to 37 C.F.R. 1.142(a), which states that a restriction requirement may be made at any time before final action.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-12, and 14-24, drawn to a tampon and method of making, classified in class 604, subclass 904.
- II. Claims 25-39, drawn to a tampon and method of forming a plurality of tampons, classified in class 156, subclass 202.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions are not capable of use together and have different process steps that result in a different mode of operation and effects (the invention of group II yields a plurality of tampons).
